I am about to post it. Just wanted to show you how I renamed the files

- shb-august-2017-met-data
- shb-summary-of-all-continuous-data-august-2017-for-website-public

1. No space
2. No capital letters

3. No special character
4. shb somewhere in the file name
5. use hyphens instead of space

Subject: SHB Website Data

Yvette –

Attached is the next round of continuous monitoring data and meteorological data for the SHB website here: <https://www.epa.gov/il/sh-bell-chicago-air-monitoring-data>

Could you also let me know the naming convention you'd like me to use? I remember you said I can't use spaces or characters, but do you need a date first? Just type out exactly what you want me to use moving forward and I'll save it that way. I sent this file in the same format as all the previous ones.

Thanks.
